

Individual Liberty and Responsibility

We understand our school is a safe and supportive environment in which we learn.

We are **encouraged** to make positive choices.

We understand and **respect** our own and others' personal rights and freedom.

We **trust** that boundaries are there to keep us safe.

We know that we can ask for support from any adult working in our school,

We are encouraged to take responsibility for how our choices impact on ourselves and others.

Individual Liberty and Responsibility are firmly embedded within our social, emotional and academic curriculum.
